British Cattle Breeders Club (BCBC)
The Club aims to improve the breeding of livestock by promoting knowledge. By collecting, collating and distributing available information and data of practical and scientific interest. By promoting the exchange of all such information and data amongst breeders of cattle at home and overseas.

Sir John Hammond Award
Awarded to those working in research, teaching, advisory, farming or affiliated professions who have made a significant contribution to animal science.

Sir John Hammond was the first President of the British Society of Animal Science serving from 1944 to 1945, he founded The British Cattle Breeders Club in 1946.
The John Hammond Award was launched in 1968 and is one of the sector's most prestigious awards.

British Society of Animal Science (BSAS)
The Society is a charity that works to improve the understanding of all aspects of animal science and to ensure research and knowledge transfer has a practical and beneficial application.

BSAS works with science and industry specialists to provide improvements in:
- the welfare and productivity of farmed animals to help produce quality, safe and environmentally sustainable food
- animal health and welfare; and the care of equine, companion and zoo animals
